7. Cell Interactions

Selection Methods

CELL SELECTION		
SINGLE CLICK		
Click on any cell to select it		
Selected cell shows blue border highlight		
SHIFT + CLICK		
Select a range of cells		
Click first cell, then Shift+Click last cell		
CMD/CTRL + CLICK		
Toggle individual cells in selection		
Add or remove cells from current selection		

| |

| DOUBLE CLICK |

| |

| | Enter edit mode for the cell | |

| | Type new value and press Enter to save | |

| |

| |

| |

Context Menu (Right-Click)

CONTEXT MENU	
Right-click on any cell to see:	
 Copy	Copy cell value to clipboard
 Paste	Paste value from clipboard
 Lock Cell	Prevent editing (toggles to Unlock)
 Mass Update	Opens multi-cell panel (when multiple selected)

Value Propagation
